## 4th Annual Quest4Treasure Hunt

22nd May 2010

Bourton-on-the-water,  
Gloucestershire, U.K.

### Useful information:

- No prior knowledge is required to participate - all information needed to solve the hunt will be available on the day.
- There will be some walking about, so sensible shoes are recommended.
- There is no team minimum or maximum, but we may even out numbers on the day, or team-find for individuals.
- Each team will need at least 40m of string. A pair of scissors and a tape-measure would be useful, but these will be available for everyone to share on the day.
- There is a treasure to be found by the first team to solve the hunt.
- The day has been structured to allow teams to purchase lunch at the Old New Inn, whilst continuing with the hunt. Other food options are available around Bourton.
- Solving the flyer codes is not essential for attending the event.
- Now in it's fourth year, the previous years hunts have been a great success with everyone having a (code)cracking good time.

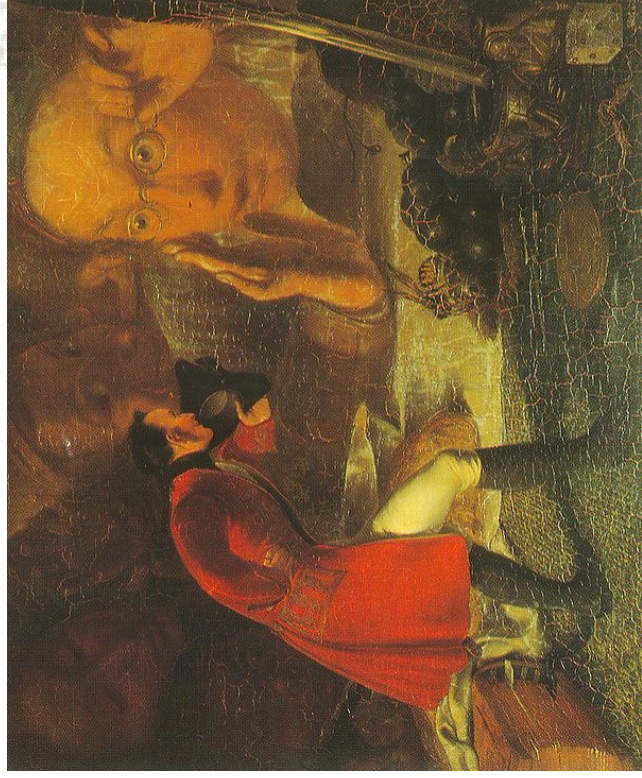

£10 entry per person for the hunt\*  
Hunt starts at 11am from the Old New Inn

\* Entry for under 18's is free when accompanied by an adult

*Citizens of Brobdingnag! Something is afoot in Tribnia. Some lawless Lilliputians have been creating mischief - things are being meddled with and some have disappeared completely.*

*The Langden are not happy and have stolen a Lilliputian treasure, which they have hidden somewhere in Beware-not-out-North, where the small folk can neither find nor recover it.*

*The help of you Brobdingnag's is needed to restore the peace, by helping put things back how they should be and by finding the hidden Lilliputian treasure.*

*The Lilliputians have eyes everywhere, so the Langden have sent these coded messages.*

*They may or may not help you on the day. The messages are:*

*"Bedal claft all alood house"*

*"For us pagnim alood BigD"*
